

# CHECKLIST

Before the start of the journey and season start

## SPRING CLEANING

Even if you keep your motorhome outside during the winter, you should still give the interior a good initial airing out and check for any water damage or mould. Wipe down the motorhome thoroughly: the surfaces, fridge and freezer compartment. Vacuum the furniture, carpets and mattresses. The windows and exterior can also be cleaned. We know, we know – it's not the most fun job in the world, but you'll end up with a nice clean motorhome where you'll feel completely at home.

You're now ready for the first outing of the year. Have a great trip!

## IMPORTANT

Safety is the be-all and end-all. That's why you should always do a thorough technical check before you start your journey.

### BASIS-CHECK

- Warning triangle and safety vest
- Firstaidkit
- Fire extinguisher
- Adapter and extension cable / cable drum
- Warning sign for bike rack (e.g. for Italy)
- Wheel chocks
- Awning retracted and skylight closed
- Tension straps for luggage fastening

### TECHNICAL-CHECK

- Battery charge level
- Headlights, brake, reverse and indicator lights
- Brake fluid
- Level of oil
- Coolant level
- Windscreen wiper water
- Tyre tread depth: minimum of 1.6 mm
- Tyre pressure with spare wheel. You can easily check this with "E-Pressure" from MyCarado.

### TECHNICAL CHECK

- Flush water systems and check for leaks
- Check the roof for cracks, dents and leaks
- Treat water tanks with special cleaning agents against algae and bacteria
- Check gas bottle fill level and gas appliances
