IMPORTANT INFORMATION REGARDING THE SELECTION OF YOUR MOTORHOME

When buying a motorhome, camper van or urban vehicle (hereafter: motorhome), it is particularly important to choose the right layout and an appealing design. In addition, weight also plays an essential role. Family, friends, optional equipment, accessories and baggage – space must be available for all of these. At the same time, there are legal and technical limits to the configuration and load. Every motorhome is designed for a certain weight, which may not be exceeded during driving. For motorhome buyers, this raises the question: How should I configure my vehicle to accommodate passengers, baggage and accessories according to my needs without the vehicle exceeding this maximum weight? In order to make this decision easier for you, we provide you below with a few tips that are particularly important when selecting your vehicle from our portfolio:

1. THE TECHNICALLY PERMISSIBLE MAXIMUM LADEN MASS...

... is a value set by the manufacturer which the vehicle may not exceed. Carado specifies a layout-related upper limit for the vehicle, which can vary from layout to layout (e.g. 3,500 kg, 4,400 kg). You can find the corresponding specification for each layout in the technical data.

TYPE / MODEL	CV540 PRO	CV600 PRO
PERMITTED NUMBER OF SEATS (INCLUDING DRIVER)*	3	4
BERTHS	2 / + OPT	3 / + OPT
Length / Width / Height (cm)	541 / 205 / 273	599 / 205 / 273
Headroom in living area (cm)	190	190
Standard chassis	Fiat Ducato	Fiat Ducato
Standard engine	2.2 Multijet	2.2 Multijet
kW (BHP)	103 (140)	103 (140)
Mass in running order (kg)*	2760 (2622 to 2898)*	2866 (2723 to 3009)*
Manufacturer-specified mass for optional equipment (kg)*	411	305
Technically permissible maximum laden mass (kg) *	3500	3500

2. THE MASS IN RUNNING ORDER...

... consists – to put it simply – of the basic vehicle with standard equipment plus a standard weight of 75 kg for the driver. It is legally permissible and possible for the mass in running order of your vehicle to deviate from the nominal value stated in the sales documents. The permissible tolerance is ± 5%. The permissible range in kilograms is given in brackets after the mass in running order. In order to provide you with full transparency regarding possible weight deviations, Carado weighs each vehicle at the end of the line and informs your trade partner of your vehicle's weighing result for forwarding to you. Detailed explanations on the subject of mass in running order can be found in the “Legal Information” section.

3. THE PERMITTED NUMBER OF SEATS (INCLUDING DRIVER)...

... is determined by the manufacturer in what is referred to as the type-approval procedure. This results in what is referred to as the mass of the passengers. For this, a standard weight of 75 kg per passenger (without driver) is calculated. Detailed explanations on the subject of mass of the passengers can be found in the “Legal Information” section.

TYPE / MODEL	CV540 PRO	CV600 PRO
PERMITTED NUMBER OF SEATS (INCLUDING DRIVER)*	3	4
BERTHS	2 / + OPT	3 / + OPT
Length / Width / Height (cm)	541 / 205 / 273	599 / 205 / 273
Headroom in living area (cm)	190	190
Standard chassis	Fiat Ducato	Fiat Ducato
Standard engine	2.2 Multijet	2.2 Multijet
kW (BHP)	103 (140)	103 (140)
Mass in running order (kg)*	2760 (2622 to 2898)*	2866 (2723 to 3009)*
Manufacturer-specified mass for optional equipment (kg)*	411	305
Technically permissible maximum laden mass (kg) *	3500	3500

4. THE MANUFACTURER-SPECIFIED MASS FOR OPTIONAL EQUIPMENT...

... is a value set by Carado per layout for the maximum mass of optional equipment that can be ordered. This limit is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. If, in exceptional cases, the weighing at the end of the line nevertheless shows that the actual load capacity falls short of the minimum pay-mass due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. Detailed explanations on the subject of the effects of the tolerances on the minimum pay-mass and the payload can be found in the “Legal Information” section.

OPTIONAL EXTRAS	ADDITIONAL WEIGHT*	BASIC PACK + 32.4 kg*
CONVERSION		
Insulated waste water tank	5 kg	
		Roof light over lounge area 70 x 50 cm
		Shower equipment (extendable shower)
		Window in bathroom

5. THE ADDITIONAL WEIGHT OF OPTIONAL EQUIPMENT AND PACKAGES...

... increases the actual mass of the vehicle (= mass in running order plus selected optional equipment) and reduces the pay-mass. The specified value shows the additional weight compared to the standard equipment of the respective layout. The total weight of the selected packages and optional equipment must not exceed the manufacturer-specified mass for optional equipment.

* INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

CAMPER VAN
STANDARD EQUIPMENT

CHASSIS /
BASE VEHICLE

- Peugeot Boxer 3.500 kg | 2.2 BlueHDi | 103 kW | 140 BHP | Euro 6 | 6-speed manual gearbox
- Front wheel drive
- Headlights with black frame
- Daytime running lights | integrated in headlights
- Electric and heated mirrors
- Radio aerial integrated in mirror
- ABS, EBD (electronic brake force distribution), ESP (electronic stability program)
- ESC (electronic stability control) including ASR (anti-skid control), hill holder (hill start assist), CWA (crosswind assist), trailer stability control and PCB (post-collision braking)
- Driver and Passenger airbag
- Cruise control
- Manual cab air conditioning
- Electric operated cab windows and central locking
- On-board computer incl. exterior temperature display
- Start & stop function incl. charge booster
- Disc brakes | rear and front wheel stabilisers | heat convection | tachometer | power steering | height-adjustable headlights | immobiliser | lap and diagonal seat belts
- Multifunction steering wheel
- Central cup holder
- USB socket (A+C)
- 60 l fuel tank
- ESC Setup incl. Traction+
- 15" steel rims
- 16" steel rims ²⁾
- Tyres M+S Camping (snowflake)
- Fix & Go breakdown kit
- Radio pre-wiring including speakers
- Driver and passenger seats swivel
- Driver and passenger seat with lumbar support
- Driver and passenger seats with armrests & upholstered covers
- Height and tilt adjustable driver and front passenger seats

EXTERIOR
SETUP

- 7-year water ingress warranty ³⁾
- Double glazed hinged windows with cassette blinds and fly screens
- Both rear doors with hinged window (incl. roller blind)
- Roof light 40 x 40 cm over lounging area with fly screen and blinds
- Roof light 40 x 40 cm over bedroom with fly screen and blinds
- Rear storage space with 4 integrated lashing rings
- Flyscreen door

COMFORT

- Isofix for 2 seats
- Spacious storage compartment above driver's cab
- Bulkhead incl. step for rear double bed
- Pedestal in lounging area with integrated storage compartment
- Rear bed with partly slatted frame
- High quality mattresses with integrated GOODSITE for better sleeping comfort
- Ergonomically shaped upholstery for improved seating comfort
- Textile cab blinds
- Spacious storage compartments and storage options
- Storage space in rear and sliding doors
- Spacious wardrobe
- Furniture in 'Visby Oak' and 'Sand grey'
- Floor Calais

INSTALLATIONS

- Flexible light bar with individually adjustable LED reading spots
- Illuminated pedestal in lounging area
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Sockets 3 x 230V | 1 x USB (double)
- Fresh water tank capacity total 100 l | waste water tank 90 l

HEATING /
GAS SUPPLY

- Gas bottle locker for 2 x 11 kg gas bottles
- Gas heating Combi 4
- Gas control valves easily accessible and centrally arranged

EQUIPEMENT
KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawer in kitchen
- 2 burner gas cooker with electric ignition and glass cover
- Compressor fridge 84 l
- LED light tube
- Worktop behind cooker
- Flexible railing system with 2 hooks

BATHROOM
EQUIPMENT

- Fixed washbasin
- Spacious storage area
- Cassette toilet C 223
- Flush fitting LED spotlights
- Roof light with fly screen

SOFT
FURNISHING

- Soft furnishing in White

EXTERIOR
COLOUR

- Chassis colour Icy-white

 * INFO

The factory installation of optional equipment increases the actual mass of the vehicle and reduces the pay-mass. The additional weight indicated for packages and optional equipment shows the additional weight compared to the standard equipment of the respective model or layout. The total weight of the selected optional equipment must not exceed the manufacturer-specified mass for optional equipment

shown in the model overviews. This is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. Detailed information and explanations on the subject of weight can be found in the Legal information section.

VARIANT DIVERSITY

Get to know our different kitchen, bathroom, bed and pack variants. Clever solutions and well-designed room concepts are our mission, and we love to make you feel safe and secure in your motorhome.

CHASSIS
THE BASIS OF THE MOTORHOME

The chassis is the basic framework for every motorhome. Whether it's the wheel suspension, the engine or the home body: all the important components of a motorhome are attached to the chassis, making it the heart of every motorhome.

BEDS
RECREATION ON THE GO

Our comfortable beds not only just invite you to rest, but are also ergonomically thought out. The high-quality mattresses from Carado ensure increased lying comfort, because restful sleep is also very important on vacation. In addition, practical storage and storage options offer plenty of space. Find the right bed for a relaxing trip here.

PACKAGES
AN OPTIMAL ADDITION

With our packages you can easily upgrade your motorhome and give it the finishing touches. From the height-adjustable passenger seat or cruise control to details such as an additional socket in the garage so that the e-bike can be charged quickly - you are guaranteed to find what you are looking for. Discover the clever packages from CARADO so that you can secure numerous advantages.

KITCHEN
THOUGHTFUL CONCEPTS TO ENJOY

Our ergonomically arranged kitchens are perfectly integrated into the living area. Generous work surfaces and a gas cooker with a high-quality glass cover guarantee a lot of flexibility for cooking even in a small space. Standard equipment: spacious servo-soft drawers in the kitchen, LED lighting, spacious refrigerator with optional freezer compartment. Everything to make cooking simply fun.

BATHROOM
FUNCTIONALITY IN A SMALL SPACE

Carados spacious bathrooms offer one thing above all: a functional room concept with maximum comfort for a relaxed start to the day. Whether separate shower room and toilet or combined - generous storage space is available. A cassette toilet with electric pump and rotating seat, large mirror surfaces and many other features are optimally integrated into the room.

SEATING GROUP
COZY LIVING AREA

The living area - there is no place where we come together as often on holiday as here. We play, relax and sometimes just look out of the window.

- Fiat Ducato 3.500 kg | 2.2 Multijet | 103 kW | 140 BHP Euro 6 | 6-speed manual gearbox
- Cruise control
- ABS, EBD (electronic brake force distribution), ESP (electronic stability program)
- ESC (electronic stability control) including ASR (anti-skid control), hill holder (hill start assist), CWA (crosswind assist), trailer stability control and PCB (post-collision braking)
- ESC Setup
- Traction+ incl. hill descent assistant
- Start & Stop function incl. charge booster
- Driver airbag
- Passenger airbag
- Manual cab air conditioning
- Electric operated cab windows and central locking
- Radio pre-wiring including speakers
- On-board computer incl. exterior temperature display
- USB socket (A+C)
- Multifunction steering wheel
- Central cup holder
- Radio aerial integrated in mirror
- Electric and heated mirrors
- Fix & Go breakdown kit
- Front wheel drive
- Disc brakes | rear and front wheel stabilisers| heat convection | tachometer | power steering, height-adjustable headlights | immobiliser | lap and diagonal seat belts
- Tyres M+S Camping (snowflake)
- Headlights with black frame
- Daytime running lights integrated in headlights
- Driver and passenger seats in matching colours
- Captain chairs with covers
- Height and tilt adjustable driver and front passenger seats
- Swiveling driver and passenger seats ⁸⁾
- Driver and passenger seat with lumbar support
- Partition to the lounging area with two practical storage bags and coat hooks ⁹⁾

EXTERIOR
SETUP

- 7-year water ingress warranty ³⁾
- Double glazed hinged windows with cassette blinds and fly screens
- Both rear doors with hinged window (incl. roller blind)
- Roof light 40 x 40 cm over lounging area with fly screen and blinds ⁸⁾
- Roof light 40 x 40 cm over bedroom with fly screen and blinds ⁸⁾
- Rear storage space with 4 integrated lashing rings ⁸⁾
- Flyscreen door
- Black pop-top roof incl. panoramic roof light ⁹⁾
- Awning 3,15 m (black)

COMFORT

- Isofix for 2 seats ⁸⁾
- Spacious storage compartment above driver's cab ¹⁰⁾
- Chassis and lounging area separated by heat-insulating wall ⁹⁾
- Bulkhead incl. step for rear double bed ⁸⁾
- Pedestal in lounging area with integrated storage compartment ⁸⁾
- Double dinette with removable table ⁹⁾
- Rear bed with partly slatted frame ⁸⁾
- High quality mattresses with integrated GOODSITE for better sleeping comfort
- Fixed steps for safe access to the pop-top roof with integrated storage compartments ⁹⁾
- Ergonomically shaped upholstery for improved seating comfort
- Spacious storage compartments and storage options
- Storage space in rear and sliding doors
- Spacious wardrobe ¹¹⁾
- Furniture in 'Visby Oak' and 'Sand grey'
- Floor Calais
- Multi-functional camping table ⁹⁾

INSTALLATIONS

- Flexible light bar with individually adjustable LED reading spots
- Illuminated pedestal in lounging area
- Recessed LED spotlights in the living room and bathroom area
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Sockets 3 x 230V | 1 x USB (double)
- Fresh water tank capacity total 100 l | waste water tank 90 l

HEATING /
GAS SUPPLY

- Gas bottle locker for 2 x 11 kg gas bottles ¹²⁾
- Gas bottle locker for 2 x 5 kg gas bottles ¹³⁾
- Gas bottle locker for 1 x 2,75 kg gas bottle ⁹⁾
- Gas heating Combi 4 ¹²⁾
- Diesel heating Combi 4 ^{9) 13)}
- Gas control valves easily accessible and centrally arranged

EQUIPEMENT
KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Ergonomically arranged kitchen with three drawers ⁹⁾
- Large soft-close drawer in kitchen
- Folding extension for kitchen worktop ⁹⁾
- 2 burner gas cooker with electric ignition and glass cover
- Worktop behind cooker
- Compressor fridge 84 l ⁸⁾
- Compressor fridge 64 l ⁹⁾
- LED light tube
- Flexible railing system with 2 hooks

BATHROOM
EQUIPMENT

- Swivelling bathroom ¹⁴⁾
- Fixed washbasin ⁸⁾
- Foldable washbasin ⁹⁾
- Bench toilet ⁹⁾
- Cassette toilet C 223 ⁸⁾
- Large closet with shelves ⁹⁾
- Comfortable shower area ⁹⁾
- Spacious storage area
- Flush fitting LED spotlights
- Roof light with fly screen ⁸⁾

CARADO ORIGINAL ACCESSORIES* BACKRACK+

Innovative. Individual. Modular. The Carado Backrack+ with its different components opens up a new world of transportation and makes your Campervan something special. Whether you have bicycles, e-bikes, a spare wheel or transport a practical aluminum box, the right component can be mounted on the Backrack+ quickly and easily. Other components are already being developed and the versatility of the system continuously expanded.

The Carado Backrack+ sets new standards in design and function.

MORE SPACE AND ORDER!

-  The Backrack+ is an innovative component carrier for your Carado campervan.
-  Thanks to the various components it opens up a wide range of transport options for your individual journey!
-  The starting point for this modular system is the base frame. On the Backrack+ base frame you can connect the various components.

* INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

- 7-year water ingress warranty ³⁾
- GRP (glass fibre reinforced plastic) roof and rear wall
- Aluminium sidewalls
- Roof and sidewall thickness 34 mm | floor thickness 42,5 mm
- Rear light carrier in three parts with integrated LED multifunction lights
- High quality entrance door with ergonomic handle inside and outside
- Electric entrance step
- Double glazed hinged window with cassette blinds and flyscreens (except for bathroom)
- Roof light with frosted perspex glass and flyscreen
- Large rear garage with lowered frame | lashing rings and interior lighting (depending on model)
- Splash water seals for the exterior storage locker and doors
- Payload in garage up to 150 kg

COMFORT

- Ergonomically shaped upholstery for improved seating comfort
- Isofix for 2 seats
- Table extension
- High-quality mattress in all beds
- Removable and washable mattress cover
- Wooden slatted frame in all fixed-beds for better sleeping comfort
- Spacious storage compartments and storage options
- Ventilation for storage locker and seat backrest
- Overhead lockers with softclose system
- Furniture in 'Visby Oak'
- Floor Calais

INSTALLATIONS

- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Automatic switching and separating systems for starter and leisure battery as well as for refrigerator
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Residual Current Device (RCD)
- LED-Awning light
- LED Interior light
- USB Socket A/C
- Fresh water tank capacity total 116 l, waste water tank 92 l

HEATING /
GAS SUPPLY

- Gas control valves easily accessible and centrally arranged
- Gas heating Combi 4
- Gas bottle locker for 2 x 11 kg gas bottles

EQUIPEMENT
KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Folding extension for kitchen worktop ²¹⁾
- Large soft-close drawer in kitchen
- 2 Burner gas cooker with piezo ignition and glass cover
- Fridge 78 l with 11 l freezer compartment ²²⁾
- Fridge 137 l with freezer compartment 15 l ²¹⁾
- Waste bin

BATHROOM
EQUIPMENT

- Vario-bathroom
- Roof vent with integrated flyscreen blind
- Large mirrors
- Clothes rail in bathroom
- Shower cubicle lining

* INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

The factory installation of optional equipment increases the actual mass of the vehicle and reduces the pay-mass. The additional weight indicated for packages and optional equipment shows the additional weight compared to the standard equipment of the respective model or layout. The total weight of the selected optional equipment must not exceed the manufacturer-specified mass for optional equipment

shown in the model overviews. This is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. Detailed information and explanations on the subject of weight can be found in the Legal information section.

OPTIC PACK 1 | PAINTED BUMPERS + 3 kg*

Painted bumper	
Black glossy skid plate	
Fog lights	

PACKAGE PRICE (£)

* INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

PACKS

- EDITION25 Pack

HIGHLIGHTS EDITION25

- Soft furnishing in Grey
- Edition graphics
- Cab sunroof
- Awning (Length depends on layout)
- Insulated waste water tank
- 2nd external storage door (size depends on layout)
- High-level rear light cluster
- Framed windows
- Folding Cab Blinds
- Large 156 l fridge with separate 29 l freezer compartment
- Chassis colour Frozen White
- 16" alloy wheels (Black)
- Chassis Pack
- Basic Pack

CHASSIS /
BASE VEHICLE

- Ford Transit 3.500 kg | 2,0l TDCi | 96 kW (130 BHP) | Euro 6 | 6-speed manual gearbox
- Wide-track chassis
- Front wheel drive
- Headlights with daytime running lights
- Cruise control
- Driver and passenger airbag
- ABS (anti-lock braking system) | ESC (electronic stability program) | TBC (traction control) | EBD (electronic brake force distribution)
- Hill start assist (crosswind assist | safety brake assist | rollover protection)
- Tyre pressure indicator
- Start & Stop function incl. charge booster
- Electric cab windows
- Central locking cab with remote control
- Radiator grille chrome
- Electric parking brake
- Front parking assistance
- 12" display incl. Apple Car Play & Android Car | four front speakers | DAB antenna | Bluetooth interface | USB port | hands-free system
- Leather steering wheel
- Cup holder driver and passenger side
- Tablet holder and USB socket
- Pre-collision assist
- Lane departure warning
- Intelligent speed detection
- Fatigue warning
- Automatic high beam control
- Disc brakes | rear and front wheel stabilisers | heat convection | tachometer | power steering | height-adjustable headlights | immobiliser | lap and diagonal seat belts
- Electric and heated mirrors
- Comfort swivel seats for driver and front passenger, each with 2 armrests and lumbar support
- Height and tilt adjustment for driver and passenger seat
- Driver and passenger seats in matching colours
- Fix & Go breakdown kit
- Rear view camera
- 70 l fuel tank
- Painted bumper

EXTERIOR
SETUP

- 7-year water ingress warranty ³⁾
- GRP (glass fibre reinforced plastic) roof and rear wall
- Aluminium sidewalls
- Roof and sidewall thickness 34 mm | floor thickness 42,5 mm
- Rear light carrier in three parts with integrated LED multifunction lights
- Double glazed hinged window with cassette blinds and flyscreens (except for bathroom)
- Roof light with frosted perspex glass and flyscreen
- Electric entrance step
- Large rear garage with lowered frame | lashing rings and interior lighting (depending on model)
- Splash water seals for the exterior storage locker and doors
- Payload in garage up to 150 kg
- High quality entrance door with ergonomic handle inside and outside

COMFORT

- Ergonomically shaped upholstery for improved seating comfort
- Isofix for 2 seats
- Table extension
- High-quality mattress in all beds
- Removable and washable mattress cover
- Wooden slatted frame in all fixed-beds for better sleeping comfort
- Spacious storage compartments and storage options
- Ventilation for storage locker and seat backrest
- Furniture in 'Visby Oak' and 'Sand grey'
- Floor Calais
- Carpet

INSTALLATIONS

- LED lighting integrated above the roof cabinets
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Automatic switching and separating systems for starter and leisure battery as well as for refrigerator
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Residual Current Device (RCD)
- LED-Awning light
- LED Interior light
- Mirror and coat hooks
- USB Socket 3x A / 1x C (layout depending)
- Fresh water tank capacity total 122 l | waste water tank 92 l
- Heating Combi 6 E (with el. heating element) incl. digital control panel
- Oven in kitchen

HEATING /
GAS SUPPLY

- Gas heating Combi 6
- Gas control valves easily accessible and centrally arranged
- Gas bottle locker for 2 x 11 kg gas bottles

EQUIPEMENT
KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawer in kitchen
- 2 burner hob and glass lid
- Large stainless steel circular sink with cover
- LED light band
- Waste bin
- Flexible railing system with 2 hooks ³²⁾
- Large 156 l fridge with separate 29 l freezer compartment

BATHROOM
EQUIPMENT

- Vario-bathroom ³³⁾
- Spacious bathroom with separate shower on the opposite side ³⁴⁾
- Swivel cassette toilet with electric flush
- Roof vent with integrated flyscreen blind (depending on model)
- Large mirrors
- Clothes rail in bathroom
- Flexible railing system with two hooks ³⁵⁾

The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

PACKS

- Basic Pack

CHASSIS /
BASE VEHICLE

- Fiat Ducato 3.500 kg | 2.2 Multijet | 103 kW | 140 BHP Euro 6 | 6-speed manual gearbox
- Wide-track chassis
- Front wheel drive
- Cruise control
- Driver airbag
- Passenger airbag
- ABS, EBD (electronic brake force distribution), ESP (electronic stability program)
- ESC (electronic stability control) including ASR (anti-skid control), hill holder (hill start assist), CWA (crosswind assist), trailer stability control and PCB (post-collision braking)
- Traction+ incl. hill descent assistant
- Start & Stop function incl. charge booster
- Low vibration, electrical and heated cab mirrors in coach optic with wide angle
- Panoramic laminated glass windshield all-round
- Fix & Go breakdown kit
- Central cup holder
- Manual cab air conditioning
- Multifunction steering wheel
- USB socket (A+C)
- Comfortable driving experience with rear and front axle stabilizers
- Disc brakes | heat convection | tachometer | power steering | immobiliser | 3-point seat belt
- 15" steel rims
- Tyres M+S Camping (snowflake)
- Pilot seats with covers
- Driver and passenger seat with lumbar support
- Driver and passenger seats swivel on Low Profile A-Class models and Overcab A132
- 60 l fuel tank
- Height and tilt adjustable driver and front passenger seats
- Headlamp trim in grey
- Full LED front lighting (daytime running light, low beam, high beam and turn signal)
- Daytime running lights integrated in headlights
- Driver's cab door left
- Radio pre-wiring with loudspeakers and antenna

EXTERIOR
SETUP

- 7-year water ingress warranty ³⁾
- GRP (glass fibre reinforced plastic) roof and rear wall
- Aluminium sidewalls
- Roof and sidewall thickness 34 mm | floor thickness 42,5 mm
- Rear light carrier in three parts with integrated LED multifunction lights
- Cab blinds for best insulation and privacy shield
- Double glazed hinged window with cassette blinds and flyscreens (except for bathroom)
- Roof light with frosted perspex glass and flyscreen
- Coupé entrance
- Large rear garage with lowered frame | lashing rings and interior lighting (depending on model)
- Splash water seals for the exterior storage locker and doors
- Payload in garage up to 150 kg
- High quality entrance door with ergonomic handle inside and outside

COMFORT

- Ergonomically shaped upholstery for improved seating comfort
- Isofix for 2 seats
- L-shape lounge with free-standing and rotating table ²⁶⁾
- Table extension ²⁷⁾
- High-quality mattress in all beds
- Removable and washable mattress cover
- Wooden slatted frame in all fixed-beds for better sleeping comfort
- Pull-down bed with Clima-Plux elements
- Spacious storage compartments and storage options
- Ventilation for storage locker and seat backrest
- Furniture in 'Visby Oak' and 'Sand grey'
- Floor Calais
- Carpet

INSTALLATIONS

- LED lighting integrated above the roof cabinets
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Automatic switching and separating systems for starter and leisure battery as well as for refrigerator
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Residual Current Device (RCD)
- LED-Awning light
- LED Interior light
- Mirror and coat hooks
- USB Socket 3x A / 1x C (layout depending)
- Fresh water tank capacity total 122 l | waste water tank 92 l
- Large 156 l fridge with separate 29 l freezer compartment
- Oven in kitchen (only in conjunction with 156 l fridge)
- Heating Combi 6 E (with el. heating element) incl. digital control panel

HEATING /
GAS SUPPLY

- Gas bottle locker for 2 x 11 kg gas bottles
- Gas heating Combi 6
- Gas control valves easily accessible and centrally arranged

EQUIPEMENT
KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawer in kitchen
- 2 burner hob and glass lid
- Large stainless steel circular sink with cover
- LED light band
- Waste bin
- Flexible railing system with 2 hooks ³²⁾
- Fridge 78 l with 11 l freezer compartment

BATHROOM
EQUIPMENT

- Spacious bathroom with separate shower on the opposite side ³⁴⁾
- Vario-bathroom ³³⁾
- Swivel cassette toilet with electric flush ²⁸⁾
- Roof vent with integrated flyscreen blind (depending on model)
- Large mirrors
- Clothes rail in bathroom
- Flexible railing system with two hooks ³⁵⁾

SOFT
FURNISHING

- Soft furnishing in White

PRO+ PACK I338 + 75 kg*

OPT Optional ● Standard equipment — Not possible ▲ Not known at the time of publication

* INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

PACKS

- pro pack A132
- pro pack A361 & A464
- Basic Pack
- Optic Pack 1 | Painted bumpers
- Optic Pack 2 | Alloy wheels

CHASSIS /
BASE VEHICLE

- Citroën Jumper 3.500 kg | 2.2 BlueHDi | 103 kW | 140 BHP Euro 6 | 6-speed manual gearbox
- Chassis colour Icy-white
- Wide-track chassis
- Front wheel drive
- Daytime running lights | integrated in headlights
- Headlights with black frame

FOOTNOTES

- 1

Before driving, please ensure that the fresh water tank does not contain more than 20 l.
- 2

CV540
- 3

The water ingress warranty conditions of Carado GmbH apply.
- 4

Shower equipment includes: extendable shower head, shower holder, shower curtain, guide rail.
- 5

CV540 and CV541 only available with 140 BHP automatic gearbox.
- 6

Including 16" steel rims.
- 7

Shower equipment includes: extendable shower head, shower holder, shower curtain, guide rail. Swivel bath without shower curtain and guide rail.
- 8

Except CV541.
- 9

In CV541.
- 10

Except CV600 pro+ and CV640 pro+
- 11

Except CV540 and CV602.
- 12

Except CV541 and CV601.
- 13

CV601
- 14

CV600 pro+ and CV640 pro+
- 15

Only in conjunction with automatic gearbox, Chassis Pack and Digital Pack.
- 16

Not possible in conjunction with pre-cabling for solar panels or solar panels
- 17

When ordering the option "bed conversion for seating area", please note that it is not permitted to use the pop-top roof and bed conversion in the seating area at the same time. This is to ensure that escape routes remain clear.
- 18

Combi 4 Diesel heating for CV541 and CV601 without digital control panel.
- 19

Not possible in conjunction with pop-top roof.

- 20

For CV540 not possible in conjunction with pop-top roof.
- 21

In V347.
- 22

Except V347.
- 23

Only in conjunction with Optic Pack 1| Painted bumpers and Optic Pack 2| Alloy wheels.
- 24

When ordering the option "bed conversion for seating area" on the V132, please note that the wardrobe in living room is replaced with a side seat incl. overhead locker.
- 25

When ordering the option "Clever-Lift bed" for the V347, please note that the overhead storage cabinet on the left side will be replaced by an open storage compartment, and overhead lockers and the window on the right-hand side in the living area are omitted.
- 26

For T447, I447, I449.
- 27

Except T447, T457, T459, I447, I449, A361, A464.
- 28

Except T135.
- 29

In T135.
- 30

Except T328.
- 31

In T328.
- 32

Except T338, T338 ED26, I338.
- 33

In A132, T328, T338, T338 ED26, T448 and I338.
- 34

For T447 ED26, T449 ED26, T447, T457, T459, I447, I449.
- 35

Except T338, T338ED26, T448, I338, A132, A361, A464.
- 36

When ordering the option "5th seat on side bench seat with seat belt", the storage compartment flap inside is omitted. An optional 5th seat must be taken into account when calculating the minimum payload and the mass of the passengers as a regular seat. In order for you to receive the 5th seat, it must be ensured that the minimum payload is still maintained and that all other legal mass values are complied with. Please feel free to contact our trade partners for detailed information.
- 37

When ordering the option bed conversion of the seating area in the integrated unit the bed entrance is via the side bench.
- 38

Lower window will be omitted on A361.
- 39

A361, A464.

* The items listed in this category are Carado original parts and accessories that are Delivered ex works and not subsequently fitted to the vehicle under the responsibility of the manufacturer become. Original Carado parts and accessories that are subsequently attached to the vehicle affect the payload option and the axle loads. Please note that the technically permissible total mass of the vehicle and the technically permissible total mass on the axle even after the attachment of the original Carado parts and accessories may be exceeded. Further information and explanations on the weight issue can be found in the sales documents and on the manufacturers' website.

LEGAL INFORMATION
ON WEIGHT-RELATED INFORMATION

The weight specifications and tests for motorhomes are uniformly regulated throughout the EU in EU Implementing Regulation No. 2021/535 (until June 2022: EU Implementing Regulation No. 1230/2012). We have summarised and explained the key terms and legal requirements from this regulation for you below. Our dealers and the Carado configurator on our website offer you additional assistance in configuring your vehicle.

1. TECHNICALLY PERMISSIBLE MAXIMUM LADEN MASS

The technically permissible maximum laden mass of the vehicle (e.g. 3,500 kg) is a mass specification set by the manufacturer which the vehicle must not exceed. Information on the technically permissible maximum laden mass of the model you have chosen can be found in the technical data. If the vehicle exceeds the technically permissible maximum laden mass in everyday driving, this constitutes an administrative offence which may result in a fine.

2. MASS IN RUNNING ORDER

In simple terms, the mass in running order is the basic vehicle with standard equipment plus a legally fixed standard weight of 75 kg for the driver. This essentially includes the following items:

- the unladen weight of the vehicle together with the bodywork, including operating fluids such as greases, oils and coolants;
- the standard equipment, i.e. all equipment items that are included as standard in the factory-fitted scope of delivery;
- the fresh water tank filled to 100 % in driving mode (driving fill according to manufacturer's specifications; 20 litres) and an aluminium gas cylinder filled to 100 % with a weight of 16 kg;
- the fuel tank, which is 90 % full, including fuel;
- the driver, whose weight – regardless of the actual weight – is generally specified as 75 kg in accordance with EU law.

Information on the mass in running order can be found for each model in our sales documents. It is important to note that the value for mass in running order given in the sales documents is a default value determined in the type-approval procedure and verified by the authorities. It is legally permissible and possible for the mass in running order of the vehicle delivered to you to deviate from the nominal value stated in the sales documents. The legally permissible tolerance is ± 5 %. In this way, the EU legislator accounts for the fact that certain fluctuations in the mass in running order occur due to variations in the weight of supplied parts as well as due to processes and weather conditions. These weight deviations can be illustrated by means of an example calculation:

- Mass in running order acc. to sales documents: 2,850 kg
- Legally permissible tolerance of ± 5 %: 142.50 kg
- Legally permissible range of mass in running order: 2,707.50 kg to 2,992.50 kg

The specific range of permissible weight deviations can be found for each model in the technical data. Carado makes great efforts to reduce weight variations to the minimum that is unavoidable for production reasons. Deviations at the upper and lower end of the range are therefore very rare; however, they cannot be completely ruled out technically, even with all optimisations. The real weight of the vehicle and compliance with the permissible tolerance is therefore checked by Carado by weighing each vehicle at the end of the line.

3. MASS OF THE PASSENGERS

The mass of the passengers is set a standard value of 75 kg for each seat provided by the manufacturer, regardless of the actual weight of the passengers. The mass of the driver is already included in the mass in running order (see no. 2 above) and is therefore not included again. In the case of a motorhome with four permitted seats, the mass of the passengers is therefore 3 · 75 kg = 225 kg.

4. OPTIONAL EQUIPMENT AND ACTUAL MASS OF THE VEHICLE

Optional equipment (also: additional equipment) includes, according to the legal definition, all optional equipment parts not included in the standard equipment which are fitted to the vehicle under the responsibility of the manufacturer – i.e. ex works – and can be ordered by the customer (e.g. awning, bicycle or motorbike carrier, satellite system, solar system, oven, etc.). Information on the individual or package weights of the optional equipment that can be ordered can be found in our sales documents. Optional equipment in this sense does not include other accessories that are retrofitted by the dealer or you personally after the vehicle has been delivered ex works. The mass of the vehicle in running order (see no. 2 above) and the mass of the optional equipment fitted to a specific vehicle at the factory are together referred to as the actual mass. You will find the corresponding information for your vehicle after handover under item 13.2 of the Certificate of Conformity (CoC). Please note that this specification also represents a standardised value. Since the mass in running order – as an element of the actual mass – is subject to a legally permissible tolerance of ± 5 % (see no. 2), the actual mass may also deviate accordingly from the stated nominal value.

5. PAY-MASS AND MINIMUM PAY-MASS

The installation of optional equipment is also subject to technical and legal limits: Only so much optional equipment can be ordered and fitted at the factory that sufficient free weight remains for baggage and other accessories ("pay-mass") without exceeding the technically permissible maximum laden mass. The pay-mass is calculated by subtracting the mass in running order (nominal value according to sales documents, see no. 2 above), mass of the optional equipment and the mass of the passengers (see no. 3 above) from the technically permissible maximum laden mass (see no. 1 above). The EU regulations stipulate a fixed minimum pay-mass for motorhomes, which must remain as a minimum for baggage or other non-factory-fitted accessories. This minimum pay-mass is calculated as follows:

Minimum pay-mass in kg ≥ 10 · (n + L)

Where: "n" is the maximum number of passengers plus the driver and "L" is the overall length of the vehicle in metres.

For a motorhome with a length of 6 m and 4 approved seats, the minimum pay-mass is therefore e.g. 10 kg · (4 + 6) = 100 kg.

To ensure that the minimum pay-mass is maintained, there is a maximum combination of optional equipment that can be ordered for each vehicle model. In the above example with a minimum pay-mass of 100 kg, the total mass of optional equipment for a vehicle with four permitted seats and a mass in running order of 2,850 kg should not exceed 325 kg:

3.500 kg	technically permissible maximum laden mass
– 2.850 kg	mass in running order
– 3 · 75 kg	mass of the passengers
– 100 kg	minimum pay-mass
= 325 kg	maximum permissible mass of optional equipment

It is important to note that this calculation is based on the default value for mass in running order as defined in the type-approval procedure, without taking into account the permissible weight deviations for mass in running order (see no. 2 above). If the maximum permissible value for the optional equipment of (in the example) 325 kg is almost or completely exhausted, an upward weight deviation can therefore result in the minimum pay-mass of 100 kg being met mathematically using the default value for the mass in running order, although in fact there is no corresponding load capacity. Here, too, an example calculation for a vehicle with four seats, whose real weighed mass in running order is 2 % above the nominal value:

3.500 kg	technically permissible maximum laden mass
– 2.907 kg	real weighed mass in running order
	(+ 2 % compared to the stated value of 2,850 kg)
– 3 · 75 kg	mass of the passengers
– 325 kg	optional equipment (maximum permissible value)
= 43 kg	actual load capacity
	(< minimum pay-mass of 100 kg)

In order to avoid such a situation, Carado further reduces the maximum permissible weight of the total optional equipment that can be ordered on a model-specific basis. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado.

Since the weight of a specific vehicle can only be determined when it is weighed at the end of the line, in very rare cases a situation may arise in which the minimum pay-mass at the end of the line is not guaranteed, despite this limitation of optional equipment. In order to guarantee the minimum pay-mass even in these cases, Carado will check together with your trade partner and you before delivery of the vehicle whether, for example, the vehicle is loaded up, seats are reduced or optional equipment is removed.

6. EFFECTS OF TOLERANCES OF THE MASS IN RUNNING ORDER ON THE PAY-MASS

Regardless of the minimum pay-mass, you should note that unavoidable production-related fluctuations in the mass in running order – both upwards and downwards – have a mirror-image effect on the remaining load capacity: If you order our example vehicle (see no. 3. above), for example, with optional equipment with a total weight of 150 kg, the calculated pay-mass based on the default value for the mass in running order is 275 kg. The load capacity actually available may deviate from this value due to tolerances and may be higher or lower. If the mass in running order of your vehicle is, for example, permissibly 2 % higher than stated in the sales documents, the load capacity is reduced from 275 kg to 218 kg:

3.500 kg	technically permissible maximum laden mass
– 2.907 kg	real weighed mass in running order
	(+ 2 % compared to the stated value of 2,850 kg)
– 3 · 75 kg	mass of the passengers
– 150 kg	optional equipment ordered for the specific vehicle
= 218 kg	Actual load capacity

As a precaution to ensure that the calculated pay-mass is actually given, you should therefore take the possible and permissible tolerances for the mass in running order into account when configuring your vehicle.

We also recommend that you weigh the laden motorhome on a non-automatic scale before each journey and, taking the individual weight of the passengers into account, determine whether the technically permissible maximum laden mass and the technically permissible maximum mass on the axle are observed.
